PROUDLY SERVING WITH PREMIUM INDUSTRIAL HANDRAILS

Rahul Steel India Pvt. Ltd. is a progressive and growth-oriented company specializing in the manufacturing and supply of high-quality Industrial Handrail Systems. With a strong commitment to safety, strength, and precision engineering, we have built a trusted presence in the industrial and infrastructure sector.

As a reliable industry partner, we deliver durable and performance-driven handrail solutions designed for platforms, walkways, staircases, mezzanines, and elevated working areas. Our handrails are engineered to provide maximum safety, structural stability, and long-term durability even in demanding industrial environments.

With a focus on continuous improvement and sustainable growth, we utilize advanced fabrication processes, skilled expertise, and strict quality control standards to meet diverse project requirements. We remain committed to building long-term partnerships by ensuring dependable quality, compliance with industry standards, and timely delivery.

OUR MISSION

To manufacture, deliver high quality steel grating & mesh solutions that meet international standards, while ensuring reliability, safety, customer satisfaction through innovation, efficiency, and timely service.

OUR VISION

To become a globally recognized leader in steel grating solutions by continuously enhancing product quality, expanding our international presence, and adopting sustainable and advanced manufacturing practices.

**AN ESTABLISHED BRAND
NAME SINCE 10+ YEARS**

Rahul Steel India Pvt. Ltd. is an ISO 9001-2015 certified company, takes this opportunity to introduce ourselves as one of the leading manufacturers of Cable Trays, Grating, Railings, Structure Fabrications, Ladders & Turnkey Projects Solutions for 10+years

To address diverse application requirements, we offer steel mesh and grating solutions in a wide range of specifications. Customers can select standard options or connect with our team for customized solutions tailored to their specific needs. Our steel mesh products are used across industries such as petrochemicals, thermal and hydro power plants, ports and docks, pharmaceuticals, & paper manufacturing. Additionally, steel mesh finds applications in platforms, mezzanine floors, stair treads, mesh ceilings, poultry house flooring, walkways, drainage covers, and tree guards, ensuring strength, safety, and long-lasting performance across projects.

QUALITY POLICY

Our Excellence

Quality is our prime concern. We are able to maintain high quality standards through our committed personnel and sound infrastructure. We ensure that finest quality material is used for products.

To ensure the quality of each material, we are providing materials Test Certificate along with supply.

Our team of experts maintain a visit on the quality of the products. Every single piece is attached with test certificates and reports. We are continually improving our quality to serve our clients better.

Our Facilities

We have a sound infrastructure. Our spacious warehouse has the capacity to store large quantities of products. We possess a team of experts who are sourcing products of international standard to keep abreast with the global markets. Our qualified professionals have served as a beacon not only for us but also for the entire industry in establishing top-notch quality standards.

Third Party Inspection

RAHUL STEEL INDIA can offer you material with inspection of and third. Third party inspection offers quality and thorough inspection for buyers. The Inspection Agency can be nominated by client or we can arrange the third party inspection by various world class reputed agency like below...

SS HANDRAIL

Rahul Steel India Private Limited is a leading manufacturer and supplier of premium quality SS Handrails, engineered to deliver superior strength, long lasting durability, and refined aesthetics for industrial, commercial, and residential applications. Known for precision engineering and exceptional craftsmanship, the company ensures that every stainless steel handrail provides reliable support, enhanced safety, and an elegant finish for staircases, balconies, walkways, and platforms. Manufactured from high grade stainless

steel, Rahul Steel India's SS Handrails offer outstanding corrosion resistance and structural integrity. These handrails are ideally suited for environments exposed to moisture, harsh weather conditions, or chemical exposure, making them an excellent choice for outdoor staircases, industrial platforms, commercial complexes, and residential buildings. Their robust construction ensures consistent stability and safety, even under heavy and continuous use.

Durable and Long-Lasting

High Strength

Customizable

Elegant Appearance

Corrosion-Resistant

One of the key advantages of SS Handrails from Rahul Steel India is their combination of strength, safety & style. The smooth, corrosion resistant surface requires minimal maintenance, while sturdy structure provides firm support for pedestrians.

Material

: Stainless Steel (SS)

Shape

ADVANTAGES OF INDUSTRIAL HANDRAIL

Our Industrial Handrail Systems are designed to deliver maximum safety, durability, and structural stability in demanding industrial environments. Manufactured using premium-grade materials and advanced fabrication techniques, Rahul Steel India Private Limited ensures that every handrail meets strict quality and safety standards while offering long-term value to our customers.

Rahul Steel India Private Limited

Your Trusted Partner for Industrial Handrail Systems

CORROSION RESISTANCE

Available in MS, SS, and GI with galvanized or powder-coated finishes to resist rust and harsh environmental conditions.

HIGH STRENGTH

Engineered for heavy-duty applications, our handrails provide excellent load-bearing capacity and structural rigidity.

SAFETY COMPLIANCE

Designed as per industrial safety norms to prevent falls and ensure secure movement across platforms and staircases.

LOW MAINTENANCE

Durable surface finishes minimize maintenance requirements and provide long-lasting performance.

WEATHER RESISTANT

Suitable for outdoor installations, withstanding extreme temperatures, moisture, and industrial exposure.

VERSATILE APPLICATION

Ideal for factories, power plants, walkways, mezzanine floors, staircases, rooftops, and industrial platforms.

CUSTOM DESIGN OPTIONS

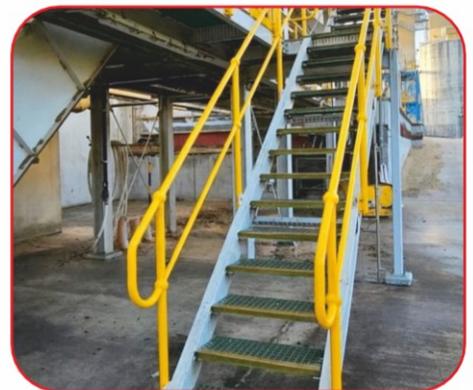

Available in customized heights, pipe diameters, finishes, and configurations to meet project specific needs.

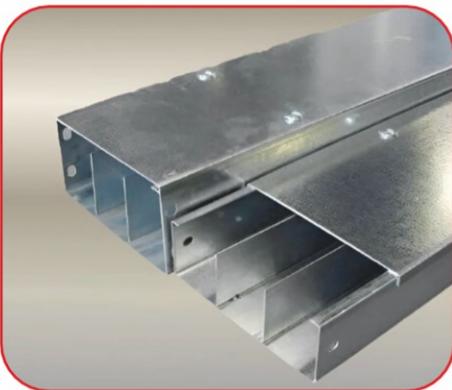

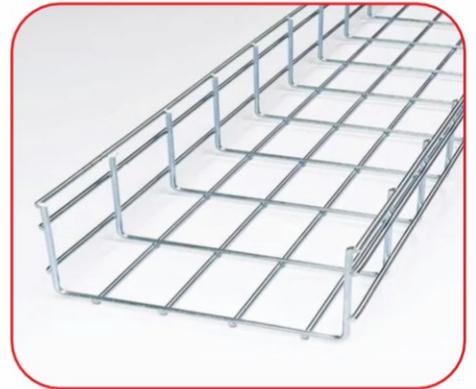

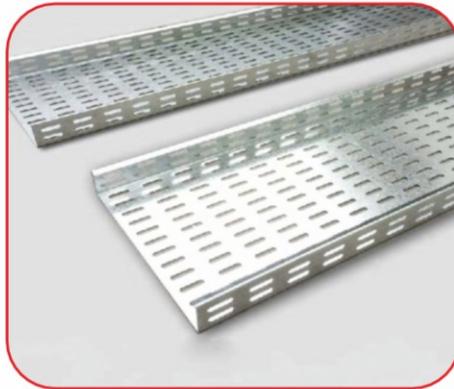

EASY INSTALLATION

Precision fabrication ensures quick installation with strong joint connections and minimal site modifications.
